## INTERNSHIPS

### MERN Stack Developer

#### Biztron

June 2024 – July 2024

Hyderabad

- Dynamic User Experience:** Built a feature-rich platform with profiles, posts, comments, and real-time interactions using the MERN stack.
- Streamlined API Communication:** Developed a RESTful API using Express.js and Node.js to enable efficient two-way data exchange between the front and back end.

### Google Android Developer

#### Edu Skills Foundation

Aug 2024 - Oct 2024

Virtual

- Kotlin Fundamentals:** Developed a solid understanding of Kotlin's core syntax and programming concepts, building a reliable foundation for application development.
- Android Development Essentials:** Explored the basic principles of Android app design, including user interface components, navigation. Created more than 10 Android applications using Kotlin.

## PROJECTS

### SOCIOPEdia

#### Team Project

June 2024 – July 2024

- Architected Full-Stack Web Applications:** Designed and built scalable web apps using the MERN stack (MongoDB, Express.js, React, and Node.js) to ensure robust backend management paired with a dynamic front-end.
- Developed a Dynamic Social Media Platform:** Created a feature-rich social platform with intuitive profiles, engaging posts, threaded comments, and real-time interactions for a seamless user experience.

### CRAZY WEARS

#### Solo Project

Jan 2024 - Apr 2024

- The e-commerce website uses JavaServer Pages (JSP) for a powerful backend and SQL database for data management.
- The frontend is built with HTML, CSS, and JavaScript, creating a responsive, user-friendly shopping interface.

### CRAZY WEARS

#### Solo Project

Oct 2024 – Nov 2024

- Developed a Dynamic E-commerce Platform:** Created a feature-rich e-commerce platform with intuitive product catalogs, responsive product pages, efficient shopping cart functionalities, secure payment gateways, and real-time inventory updates for a seamless and satisfying shopping experience.

## LIFE PHILOSOPHY

"I rise. I persist. I transform every stumble into a stride toward greatness."

## CERIFICATIONS

#### DSA Training

Achieved 1st in Phase -1 of DSA training by Smart Interviews.

#### React JS

Learned about react and Certificate of Achievement from Infosys Springboard

#### Cloud Computing

Learnt about cloud basics and AWS working.

#### Cybersecurity Essentials

Learn the basics of cybersecurity and how to protect against cyber threats from Cisco networking academy.

#### Web accessibility

Learnt about creating websites that are accessible to everyone, including users with disabilities.

## SKILLS

Java

Python

C

C++

HTML
